RE: MUR 6627

Dear General Counsel:

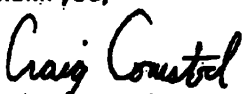

Listed below are responses to some of the complaints filed under complaint MUR 6627.

Violation #2 response: The Mike Moon for Congress campaign reported a \$750 expenditure to the Rally for Common Sense on 5/2/12. This expense is included in the operating expenditures on the second quarter report filed July 2012. As treasurer, I did not pull it out and list it as an itemized disbursement. If I misinterpreted the filing instructions I can file an amended report for the second quarter. It will not change the expenditure total reported. The amount reported for the quarter is accurate.

Violation #7 response: The campaign reported a \$220 expenditure to NCCS on 4/27/12 for the pocket Constitutions that Mr. Moon was handing out. This expense has also been included in the operating expenditures on the second quarter report filed July 2012. As treasurer, I did not pull it out and list it as an itemized disbursement. If I misinterpreted the filing instructions I can also put this on the amended report for the second quarter if the Commission determines this needs to be done.

All contributions and expenditures for the Mike Moon for Congress campaign reported to me have been put on the quarterly reports. If changes need to be made I will gladly amend any reports to comply with the FEC regulations. Mr. Moon will speak to the other complaints in a separate response. Please let me know if there is anything else I can provide to you. As treasurer, I want the campaign to be in compliance with all FEC campaign rules and regulations.

Thank you,

Craig Comstock
Treasurer
Mike Moon for Congress
